DR. MCMEHAN delivered a very inter esting and polished address before the Alumnal Association of the Ohio Medi-cal College yesterday afternoon. POSTMASTER WAHLE has closed up the

Fourth-street letter-box. Cause, the "machine" is out of order, and the Government refuses to make him an allowance for repairs. THE two little girls, Josephine and Lilly Heckelroth, who were arrested for passing counterfeit nickels, were bound

over by Commissioner Hooper under bond to await trial. Their mother, for lack of evidence, was dismissed. REV. JACOB FOWLER, formerly a missionary for the Radical Methodist Church, and latterly in the church service in Illinois, is in the city appealing to his friends and others for aid to carry him to the Arkansas Hot Springs. He is suffering from partial paralysis.

THE County Commissioners have authorized the Solicitor to consent to an entry in the suit brought by the State to recover taxes collected and not properly distributed. The Commissioners admit an indebtedness of \$43,627 26, and are willing to compromise by the payment

MR. H. J. EARES, who came here unmittee to furnish costumes for the procession, has been annoyed considerably by several suits at law, brought against him by creditors here who erroneously supposed that he intended to jump the town and his bills. He is not that kind of a man.

Jake Gardner says that he knows nothing about that alleged assault upon him with a sword-cane by "a drunken man named Wade" in Peter Lauer's saloon, last Wednesday. He further avers that if he finds out who that reporter is who made his name stand on the paper about an affair in which he is entirely ignorant, that he'll put a head on him. Look out.

Embezzlement.

Recently Mr. Eph. Holland, one of the proprietors of the Empire Saloon, on Fitth street near Vine, came to the sad conclusion that his book-keeper, Mr. Thomas Hilsheimer, formerly of Richmond, Va., was acting crooked in regard to the finances of the concern, as the receipts did not seem to tally very well with the amount of business done. Holland laid a plan by which Hilsheimer's guilt was made manifest, and he was so completely cornered that he contracted has been supported by the contract of the fessed his rascallty and has disgorged part of his ill-gotten gains. It is esti-mated that the amount of his embezzlement will reach nearly \$25,000, \$13,000 of which has been recovered, mostly in expensive jeweiry. It seems that Mr. Holland has no intention of prosecuting his dishonest employe.

aroused.

Drs. Mitchell and Norton being called on, they at once pronounced it a case of narcotic poisoning, and applied the atomach pump, when it was discovered that the patient had taken immense doses of landanum and morphine. The Coroner's Jury this morning returned a verdict of death from suicide by poison.

H. B. Stites is engine driver of the Elevens. From all accounts he has become indebted for work done for him by a shoemaker named James Valentine, of Eastern avenue, near the Mowry Car Wheel Works.

The shoemaker thinking to have his

account more quickly settled sent a note to the Chief of the Fire De-partment acquainting him with the fact that Stites owed him money which he wouldn't pay.

The debtor and creditor met yesterday evening, and after a hot interview, Valentine cut Stites in the left side between the fifth and sixth rib, the wound extending two inches, the kulfe passing in the neighborhood of the

It was of large size, of copper or bronze, and had a medallion head on one side, and on the other figures of Justice with scales and sword and of Religion with a cross, and a circular temple in the background, with a date that seems to be 1604 or MDCIHL. BEE-KEEPING.—Bee-keeping is not only profitable in the way of dollars and ceuts, but the presence of bees in and about orchards and vineyards tends to increase the yield from vines and trees. Bees carry pollen from petal to petal and cause fructification of the floweret, and thereby cause more truit to set than would otherwise be done. Bee-raising is specially advantageous to ladics, whe are thus afforded not only pleasant but profitable occupation, and also gives out-door work, and thus benefits their general health; and there is no other business which offers such strong inducements to those who wish to make money.

Ancodotes concerning the meanness of the Orleans Princes are still freely circulated in France. It is said that the Duc d'Aumale sends the game killed in his hunting parties to be sold in the markets of Paris, whereas the Emperor Napoleon III used to give it to the poor. The Duke also asked and obtained compensation for damages done his chateau during the war, thougane damages were visible. He has been further detected in making change out of a collection-plate making change out of a collection-plate passed around in Church.

A Quarter of a Century's trial has Dem enstrated their Superiority.

"Wheeler & Wilson's New No. 6 Machine must eventually super-sede all others now known with which it comes in competition. We recommend for it the highest award which it is in the power of the Institute to bestow."-From the unanimous report of the five Jadges of the

American Institute, New York, 1874. The Board of Managers unanimously approved the report, and recommended for this machine the Gold Medal of the Institute.

The Board of Direction unanimously as proved this recommendation, and awarded the Gold Medal awarded for a Sewing Machine by

the American Institute for many years.

The Austrian Official Report of the Vieuse Exposition pronounced it "the marvel of the Exposition," and added, " this universal machine sews the beaviest leather harness and the finest gauze with a truly pearl stitch." The Grand Medal of Progress was

awarded for it. What the Leading Manufacturers of Boo and Shoes say of

WHEELER & WILSON'S New No. 6 Sewing Machine.

We, manufacturers of Boots and Schoe, are using Wheeler & Wilson's New No. 8 Sewing Machine in all kinds of stitching on our work and confidently believe that it will supers all others in this branch of manufactures, fo the following reasons:

1. The work done by this machine is superior to that of any other in variety, amount, excellence and beauty. 2. This machine is more durable than any

other of its class, requiring much less outles for repairs and renewal of parts. 3. It does the cording or staying of button holes in a most elegant and substantial man-

We are running the Wheeler & Wilson Sew ing Machine No. 6, by steam power, at a spead of 700 stitches per minute on Ladies' and Missey Fine Shoe Uppers, and and it supe to any other machine in the following ticulars:

It will close seams with heavy silk in h tighter, without puckering, than any machine we know. It will close leather seems with Marshall's Casted Thread at above speed equal to the Howe Cylinder Machine. It runs fester and makes a mose regular

stitch on Ine leather than any machine have ever used.

We believe it will prove a very durable mechine, and when were down may be repaired cheaper and better than the average of articles machine.

We use and cheerfully recommend the Wheeler & Wilson No. 6 Sewing Machine as
